12/9/66

Dear Mike,

In CD 498 there is a note written onto list of Secret Service reports forwarded to the Commission saying that Arlen Specter had copies of Control Nos. 1205, 1221, 1222 and perhaps 1223. Control 1221 is DX 391. You know my interest in it.

When you can, I'd appreciate it if you can find the relevent correspondence and memos. One possible source is the Specter letter file.

There should be a request for this material. If there is, I would like that also, please. It would be before the date of AS Control No. 1221.

Thanks.

Sincerely,

Harold Weisberg
